

Your success by the book!

Up your game in 30 minutes. Industry experts share knowledge you can apply immediately to make you (and your company) more successful.

“I-007ebooks are like water in the desert ...it’s up to you to drink it in order to survive!”

Stephen V. Chavez
Senior Product Marketing Manager
Siemens

VISIT THE LIBRARY

I-Connect007 has made it simple and easy to get your book published and help you gain recognition in the industry.

“I-007eBooks has gone far in establishing our credibility as a leading expert in the field of high-speed design. As a direct result of the exposure this book gave us, I was even invited to deliver a presentation at a conference full of my prospects.”

Martyn Gaudion
Managing Director, Polar Instruments

“One of our European account managers attended a seminar at customer premises only to find that our book was being utilized as training material!”

Julia Vorley
Marketing Manager, Electrolube

“Cadence recently published its first book with I-Connect007 and have been pleased with the post-launch process I-Connect007 employs for promotion. Early results are promising and exceeding initial expectations, and we are looking forward to continuing our collaboration.”

Steve Brown
Director of Strategic Communications, Cadence

I-007eBooks

I-007eBooks not only educate, they create highly qualified leads for our customers—leads that exceed expectations.

“500 qualified leads in just 6 weeks! How many trade shows would I have to staff to get that many quality leads?”

Andrew Naisbitt
CEO, Gen3

“We are quite happy with the leads our eBooks have brought in so far and look forward to publishing the next one.”

Tova Levy
Digital Marketing
Siemens Digital Industries Software

“We were pleasantly surprised at the ease in getting this book published. It was also very rewarding to see the number of downloads as well as the positive feedback we received in a relatively short amount of time.”

Dave Ryder
President, Prototron

I-007eBooks

We make publishing your book simple and easy.

You choose an available topic—we can assist—to educate PCB designers, buyers, fabricators, or assemblers ...and we do the rest!
